

Please Read This First...

Howdy,

I want to welcome you to “The Flipping Ninja Blueprint.”

The process I’m about to take you through is exactly what I run through myself anytime I want to make money.

It’s also the same exact process I have used to make \$31,209.65 in profits (over \$100,000+ in total sales) – completely on my spare time with only a few hours per week, while working a full-time “9 to 5” job.

These are the same powerful secrets that allowed me, a college dropout who got fired from 3 jobs...

To comfortably walk away from my eventual \$60,000 a year job – and make a full-time living on my own terms while supporting myself – all through flipping.

To this day, I still make money flipping things using all the information in this Blueprint that you’re reading now.

The key to being successful in the flipping business is understanding all the details and specifics. Being armed with the right knowledge while understanding things like what to buy, where, how to determine value, how to sell, how to market, where to market, how to write ads that sell, how to take photos that sell, how to scale your business, what to look for...

Then doing it.

First, I’m going to quickly take you through the basics of flipping to make sure you’ve got a strong foundation.

Then...

We jump straight into the specifics. The details. The juicy “insider secrets” like...

- **Learning exactly WHAT to buy, WHERE, and for HOW MUCH** -- to make maximum profits (most people simply don't know what to buy, so they don't make money... I'll show you EXACTLY what to look for so you can profit immediately)
- **Learning powerful marketing techniques** that will train you to demand much higher asking prices than the average Joe
- **Learning how to use the 4 Weapons of Determining Value on any item in go seconds or less, so you can make swift buying decisions (this skill set alone can make you a fortune and is responsible for 90% of your profits -- these tools by themselves are worth the cost of this entire program)**
- **Developing The Eye for The Deal©: You're so focused, you see deals and their profit almost immediately** (learn this powerful "superpower" once and you'll start seeing and attracting big, small, and medium money-making deals anywhere and everywhere you go automatically -- with no effort at all, giving you an unfair advantage over other flippers)
- **See how I funded a 4-day Los Angeles weekend trip** on just \$30 and 3 hours of work
- **See how I made \$500 in one outing** -- all captured on video, you'll feel like you were in the passenger seat with me
- **How to make your first hundred to thousand dollars by next weekend with secrets of monetizing your environment and using the Eye for the Deal©** which you will have developed and learned (I've personally made \$2,225 in one day with this, while others have made as low as \$100 by the weekend using these secrets)
- **Complete proven and effective scripts and infographics you can use immediately to start making money right away** (you copy and paste exact responses, emails, and texts so that you don't have to think about what to say or wonder what works for closing the deal)

- **Discover why I call the flipping business "The Dumb and Lazy Man's Game"** because of how easy it is to make money (yet you can make more money in less time than probably 90% of your friends who work "day jobs")
- **How to make several thousand dollars on your spare time month after month if you work a full-time job** (it'll be as if you picked up another full-time, 40 hour per week job, except you're only 'working' a few hours per week while having total freedom)
- **Discover all the money-making opportunities around you as a college student** (most college kids who learn how to flip end up making more money than their friends who work full-time and part-time jobs except they make it in less than HALF the time)
- **A tried-and-true marketing template you can use to demand insane, higher prices while selling your items 2x as fast year after year** (this is how I sold a \$6 chess set from a thrift store for \$100 4 days later, resulting in a \$94 profit for 20 minutes of "work")
- **Psychological tactics you can use to charge the most money possible for the items you're flipping** (often times double, even triple your otherwise "normal" asking price)
- And so much more.

The "Flipping Ninja Blueprint" has condensed years of experience, thinking, insights, and knowledge -- into what you're reading now.

It is your complete A to Z BIBLE on flipping.

I'm gonna tell you right now that this content is life-changing!

I know it sounds like a cliché, but it's true.

It really did change my life and direction. It allowed me to attain freedom of time, create new experiences, do more things in life, go more places, have more options, and so much more.

It will change your life too – if you allow it to.

You can do it all – and I'm going to show you how.

It doesn't matter if you're a:

- Full-time or part-time working professional wanting a second profitable income stream
- College student who wants some extra cash but doesn't want to work long, hard hours at a "job"
- Stay at home parent wanting to make a couple hundred or thousand dollars "on the side" flipping things for profits.
- Entrepreneur or self-employed individual looking for an additional income stream to fund business and personal projects, or lifestyle

FACT: What I teach you will make you money.

You just have to figure out what you want to do with it.

It can make you as little as \$500 per month (very easy), to as much as \$3,000 per month (or more).

The point is this.

HOW MUCH you want to make with what I teach you here is completely up to you.

And WHAT you decide to spend your money on is up to you... maybe your dreams and desires aren't the same as mine...

I like cars, and I've got an interest in real estate investing... I also like having more time that flipping gives me so I can do things like read...

... maybe you'd be happy just not having to stress about money and be able to take an extra vacation each year.

You might just want to learn how to flip things for profits so you can quickly pay off credit card debt...

You might even be someone who doesn't want to make "that much" money and are perfectly okay with an extra \$500 per month from flipping things (again, this is VERY easy to do once you learn how in the Blueprint... I'll show you)...

I made \$2,600 per month doing this with a few hours per week.

Maybe you'd be happy with half of that... or even a QUARTER of that – that's \$650 a month.

Or maybe you want to go full-time and make \$5k, \$10k, or even more?!?!

The point is – it's completely up to you once you learn the skills that I show you. YOU have the power to determine what you want and get it. Your call.

Don't wanna quit your full-time job like I did? That's fine. Flip things on your spare time and make money on the side.

As simple as it may sound – the reason many people quit is because they don't know what they're doing.

That won't be you though.

You won't have to guess about what to do.

You'll KNOW. Because – as a result of going through this Blueprint completely – you are dangerously armed with VITAL business skills that are focused primarily on one thing...

Making money (and having fun doing it).

This isn't a "feel good" course and I'm not going to feed you fluff or BS.

I'm not gonna waste your time.

This Blueprint has been strictly designed for those who want, and are ready to be trained in 2 things...

1. The flipping business
2. The business of making money

You'll have deep knowledge of both – and here's what's amazing about that...

With that knowledge, as I said, what you do with it and how you use it, is completely up to you.

I've put this Blueprint together in a sneaky way that should activate your brain and "Eye for the Deal" without too much effort on your part.

Each section builds on the one before it. So I very much suggest you go through the Blueprint and take in all the information as I've structured it in order, beginning to end, at least the first time around.

This is the course that will take you from rookie who doesn't know what he's doing and where to turn, to Pro Flipping Ninja in the shortest amount of time humanly possible. No fluff. Pure knowledge and experience being delivered to you. There has never been anything else like this on planet earth that even comes close. And I give you my word on that.

What you are reading now is The Flipping Ninja Blueprint. On its own, this Blueprint offers you a stunning toolkit of stuff you can use right away. I've included complete scripts for you to use, as well as exact step-by-step processes and tools to make you money by the weekend if you wanted to.

If you're a purchaser of the Gold or Diamond package, this Blueprint is also accompanied by a set of 60+ video modules.

I recommend you read this Flipping Ninja Blueprint first, then watch the video training modules.

That's because I want you to have the foundation that the Blueprint gives you first for a much more powerful learning experience.

Here's How To Go Through The Course...

Howdy again,

I've designed and put together the Blueprint to be 'absorbed' by your brain in a certain way.

You can go through at your own speed. Go fast. Or take your time.

That's the beauty of online video training courses and books: you can rewind, go over sections until you're satisfied... and reread things as needed.

The folks who I teach in real life don't have that luxury. They have to follow my hectic pace and "constantly on the move" fast training... which worked great.

But I believe you're going to enjoy being able to go through this on your own terms.

Just a couple of points to get you started:

1. **This Blueprint is the Bible of flipping and is just over 300 pages:** If you read just 20 pages a day, you'll be finished with the Blueprint in 15 days.
2. If you just watch 10 video training modules per day, you'll have gone through the whole course in 6 days.

That means that by the end of 6 days, you'll be miles ahead of most...

By the end of 15 days, you'll be LIGHT YEARS ahead of most...

3. **Big Advantage:** In The Flipping Ninja Blueprint, you have real life examples of real items I've flipped, giving you complete insider information on the why, the how, the what. This way instead of just learning theory, you've got more context to understand what I did, why, and how.

Some people are gonna blow through this course in record time. At least on the first go-round.

Others are going to savor the process, and let things settle with time and study.

There is no "right" way to do it.

However, one suggestion: I have always found that things I've learned stick with me longer when I read something I want to remember three times:

First, read each section quickly to get a quick overview of the material.

Second, read it slowly, marking up the sections that are of the greatest help to you.

Then, copy those sections onto some notes (doing so will help you quickly internalize them).

Most of all, take time to think as you go through these pages.

The material in this Blueprint has made me over \$100,000+ in sales within the past couple years. Internalize them and then apply them with a heaping helping of your own creativity and genius, and they'll do the same for you.

Now go get 'em tiger.

A.J. Hakimi
